DETAILED ACTION

Response to Arguments

1. Applicant's arguments, filed 03/10/08, with respect to claims 1,2 and 4-6 have been fully considered and are persuasive. The prior art rejection of claims 1,2 and 4-6 has been withdrawn.

Claim Objections

2. Claim 6 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. Claim 6 attempts to limit claim 1 where the first mode corresponds to a ring buffer transfer and the second mode corresponds to a rectangular block transfer. However this already described in claim 1 where limitations associate the first mode of operation to the ring buffer and the second mode of operation to the DMA transfer of a rectangular area. Examiner suggests this limitation be incorporated into claim 1 for clarification purposes. It does not appear it would be further limiting.

Allowable Subject Matter

3. Claims 1,2 and 4-6 are allowed.

The following is the statement of reasons for the indication of allowable subject matter: The prior art disclosed by the applicant and cited by the Examiner fail to teach or suggest, alone or in combination, *all* the limitations of the independent claim(s) (*claims 1 and 5*), particularly having a third register that contains the value of the

difference between an end address and start address of a ring buffer for a first mode and the third register being the address increment of a non-contiguous area in a DMA transfer of a rectangular area for a second mode.

Conclusion

4. This application is in condition for allowance except for the following formal matters: objection to claim 6.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
